

Chellaston Academy

.Sorry to have to tell you, but its not like in the films

No we don't have lockers and there is no cheerleading or massive football team named after an animal, but you will have fun!

Chellaston seems big but really it isn't. You don't have to go to every single classroom for your lessons so you don't need to know where all the classrooms are. After the first 2 weeks, you will know where you are going and like any other day at school you will be bored in lessons and waiting for that noisy bell to go off .

Yes we have a lot of homework but that's ok, it is all on firefly which is an app so it is easy to manage.

PE is so much fun and the equipment is amazing. I remember in my first week there I did gymnastics in PE and they had ropes, metal bars, springboards and a vault.

And for the people who like football, like me, there is a massive field and courts.

Even if you aren't with your friends in form or in your sets, you can see them at lunch and break. Once again, its not like a film ,you don't just spontaneously burst into song during lunch but there's lots of good food and fizzy drinks available to buy. Yes its not a lie, its true, they are called a Suso.

I'm making it sound amazing(except the part where I said its not like a film) but its just a school guys.
